EON Instrumentation's New Video Conversion Amplifier/Splitters

Volume 3 Quarter 2 | June 2016

Eon Instrumentation is proud to announce a new product line of Video Conversion units that include the ADV-301-VGA-2, ADV-301-VGA-3, ADV-301-VGA-4, and the ADV-301-HDMI. These units accept a wide range of input (VGA/PAL/RS-170/SDI) and amplify, split, and convert to any combination of outputs including HDMI output. These units are all fully customizable and can handle any desired input video format and convert to any output video format. Different connector options are available upon request. These video conversion products are ruggedized and designed to meet Environmental standards MIL-STD-810 and Electromagnetic Interference (EMI) standards MIL-STD-461. Platforms on which Eon's Video Conversion amplifier products are currently installed include the P-3, MH-60, SH-60, and C-130 platforms.

Video format inputs/outputs include:

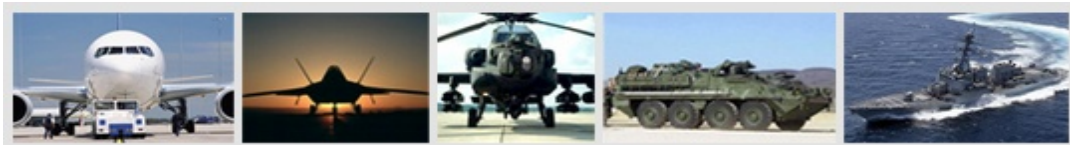

• RS-170 • SDI • 3G HD-SDI • HDMI • VGA • PAL • NTSC • Others Upon Request

ADV-301-VGA-3 ADV-301-VGA-2 ADV-301-VGA-4
