Eon Completes integration of Recently Acquired Instrumentation Technology Systems (ITS) Product Lines

Volume 6.12 | December 2021

Eon Instrumentation Inc is pleased to report that all recently acquired ITS products and engineering projects are integrated into Eon's development facilities. Deliveries continue per schedule and are produced under Eon's AS9100D quality system and fully qualified to Environmental and EMI specifications DO-160, 461, 704, and 810.

About Eon Instrumentation --- Since 1961

Eon is a veteran owned multi-million-dollar business that designs and manufactures military qualified, industrial, and rugged commercial products for airborne, shipborne, and ground vehicle platforms. These products include Analog and High Definition Video Systems (splitters, converters, selectors, cameras, monitors and recorders); Blanking Control Systems; Power Supply Systems; Audio Amplifier Systems; Space and Missile Systems; and Instrumentation Technology Systems.
