

EON Wins New Homeland Security Contracts

Volume 7.5 | August 2022

Eon continues to expand its products into homeland security applications.

The FAA ordered 6125DE2 Receiver/Driver systems. The unit is a Universal Camera Control unit designed to control a Pan & Tilt mount and variety of video cameras, including visible light and Infrared.

UNICOR ordered ADV-301-1340 rack mount systems. The system consists of forty (40) 1-in, 3-out analog video splitter cards. Each video card output has unity gain relative to the input.
